

## Introduction

The Employer Slide Library was created as part of the National Association of Chronic Disease Director's (NACDD) National Diabetes Prevention Program (National DPP) [Employer Learning Collaborative](#). The PowerPoint slide library is a resource for you to pull from when helping an employer decide if they want to add the National DPP lifestyle change program as a covered benefit for their workforce. The slide library is fully editable. You can download and save it to your files.

## Using the Employer Slide Library

The Employer Slide Library can help you develop your own presentations or materials. We hope the speaker and customization notes allow you to pull individual slides or content as needed. It is not intended to be presented from top to bottom.

1. Download the slide library and save it to your files.
2. Pull slides or content as needed from the library for presentations or conversations with decision makers.
3. Update any highlighted areas with your own content. You can find "Customization Notes" in the speaker notes section of each slide.
4. Each slide has "Speaker Notes" for you to refer to and adapt for your own conversations or presentations. Also included are links to "Sources" with more information.

## Frequently Asked Questions

### Can I rebrand these slides with my organization's logo, colors, and style guide?

Yes! Please do.

### I could use more content. How do I suggest additions or changes to these slides?

We want these slides to be useful and to make working with employers easier. If there are additional topics that would be helpful, or if something just isn't quite working, please suggest additions or changes! Send your ideas to [nacdd.diabetes@chronicdisease.org](mailto:nacdd.diabetes@chronicdisease.org) with the subject line "Employer Slide Library Use."
