

# National Diabetes Prevention Program Coverage Toolkit

## Quarterly Bulletin:

### Real solutions from policy to payment

Welcome to the third quarterly National Diabetes Prevention Program (National DPP) Coverage Toolkit Bulletin of 2024. This bulletin is released every three months (in February, May, August, and November), and includes a synopsis of the new content that has been published on the [National DPP Coverage Toolkit](#) (the Toolkit) as well as key highlights that demonstrate the impact on its readership. Toolkit updates are developed in alignment with our partners' technical assistance needs, focusing on the information partners need to plan for, operationalize, and sustain payer coverage for the National DPP lifestyle change program.

Here is a summary of the Toolkit content updates and analytics from the past quarter, May – July 2024.

### Updated Content and New Features

---

#### New Toolkit Pages

Three new pages were added to the Toolkit in this quarter:

- [Individuals with a Previous Gestational Diabetes Diagnosis](#): This page provides guidance on how to effectively engage individuals with a previous gestational diabetes diagnosis in the National DPP lifestyle change program. Sections include a description of gestational diabetes, population-specific benefits of the program, and strategies and examples for engaging individuals with a previous gestational diabetes diagnosis in the program.
- [Engaging Community-Based Organizations](#): This page features information on how community-based organizations (CBOs) can play a key role in scaling the National DPP lifestyle change program. Sections include types of CBOs, reasons to engage CBOs, examples of CBOs supporting the National DPP lifestyle change program, reimbursement for CBOs, and resources for engaging CBOs.
- [Community Care Hubs](#): This page describes the functions of a community care hub (CCH) and the benefits of participating in one. Additional sections include how CCHs can offer evidence-based programs and address health-related social needs (HRSN), the difference between CCHs and other CBO network approaches, and spotlights on several CCHs.

*Main menu bar Health Equity → Priority Populations → Gestational Diabetes*

*Main menu bar Building Partnerships → Community-Based Organizations*

*Main menu bar Building Partnerships → Community Care Hubs*

#### UHA Pages

Eleven existing resources on the [Umbrella Hub Arrangements](#) (UHA) pages were updated to align with the new [UHA guidance](#) from the Centers for Disease Control and Prevention (CDC). The updated guidance includes that aggregate UHA applications will no longer be accepted. The following resources were updated on the [UHA Overview](#), [UHA Business Model](#), and [UHA Reimbursement](#) pages:

- [Umbrella Hub Organization \(UHO\) Checklist](#)

- [Landscape Analysis for UHAs](#)
- [UHA Resource Guide](#)
- [Learnings from the Umbrella Hub Demonstration](#)
- [UHA FAQ](#)
- [Subsidiary Onboarding and Engagement Checklist](#)
- [UHA Project Planning Template](#)
- [UHA Resources at a Glance](#)
- [Learnings from the Umbrella Hub Demonstration - Overview](#)
- [UHO Medicare Diabetes Prevention Program \(MDPP\) Supplier Enrollment Guide](#)
- [UHA Modifiable Slide Deck](#)

*Main menu bar Umbrella Hub Arrangements → UHA Overview*

*Main menu bar Umbrella Hub Arrangements → UHA Business Model*

*Main menu bar Umbrella Hub Arrangements → UHA Reimbursement*

### UHA Spotlights

A new spotlight was added to the [UHA Spotlights](#) page for the American Pharmacists Association (APhA) Foundation. The [APhA Foundation Spotlight](#) describes the efforts of APhA Foundation, the non-profit arm of APhA, to develop a nationwide pharmacy UHA.

*Main menu bar Umbrella Hub Arrangements → UHA Spotlights*

### MDPP Implementation Resources

The [Medicare Diabetes Prevention Program \(MDPP\) Implementation Resources](#) page was updated to include links to video tutorials of how to use the DPP Business Tools. The links are included in the section for NACDD's DPP Business Tools at the bottom of the table that features the three resources.

*Main menu bar Medicare → MDPP Implementation Resources*

### Health Equity Pages

New information and resources were added to two of the Health Equity pages:

- [Addressing HRSN Through the National DPP Lifestyle Change Program](#): A link to the [NACDD Social Justice Framework](#), intended to support the incorporation of social justice into chronic disease programs, was added to the page. Additionally, a new graphic was added to the page in the section titled "The National DPP Lifestyle Change Program Curriculum Focuses on Valuable Skills that Address HRSN."
- [Leveraging State and National Health Equity Initiatives](#): The [HRSN Screen Tools Crosswalk](#), which highlights three screening tools that can be used to address HRSN and further health equity, was added to the page.

*Main menu bar Health Equity → Health Equity and the National DPP → The National DPP and HRSN*

*Main menu bar Health Equity → Health Equity and the National DPP → Leveraging Related Initiatives*

### Partner Networks

The [Partner Networks](#) page now includes a link to the [Bright Spot Initiative webinar](#) in the "Bright Spot Initiative Overview" section. The webinar allows viewers to learn more about the Bright Spot Initiative

and glean new ideas about working to increase enrollment in the National DPP lifestyle change program and the MDPP through outreach and engagement strategies for priority populations.

*Main menu bar Building Partnerships → Partner Networks*

### ICD Code Brief

The [Internal Classification of Diseases \(ICD\) Code Brief](#) was updated to include information on ICD-11, which was released by the World Health Organization (WHO) in 2022. ICD-11 implementation will require a minimum of four to five years, and ICD-10 will be used until implementation is complete.

*Main menu bar Medicaid → Fiscal Operations → Coding & Billing → ICD-10 Codes tab of the tabbed table*

### Data, Reporting, and Evaluation

The [Data, Reporting, and Evaluation](#) page now features ideas and examples for using state data to make the case for covering the National DPP lifestyle change program in the “Evaluation Examples” table. The section provides ideas for where to gather the necessary data and features examples from Utah, Colorado, and Virginia.

*Main menu bar Medicaid → Fiscal Operations → Data, Reporting, and Evaluation*

### Minnesota State Story

The [Minnesota State Story](#) page was updated to highlight the Trellis UHA. The updated content includes a link to the [Trellis Spotlight](#) which describes Minnesota’s efforts to expand the National DPP lifestyle change program through a UHA.

*Main menu bar Medicaid → State Stories of Medicaid Coverage → Minnesota*

### Various Pages

Additional edits that were applied across multiple pages of the Toolkit:

- A comprehensive link check was conducted to correct broken links across all pages of the Toolkit.
- The Process Flow Template was updated to be the [Participant Identification and Engagement Workflow](#) on the [Medicaid Case for Coverage](#) and [Recruitment and Referral](#) pages.

## Impact and Use

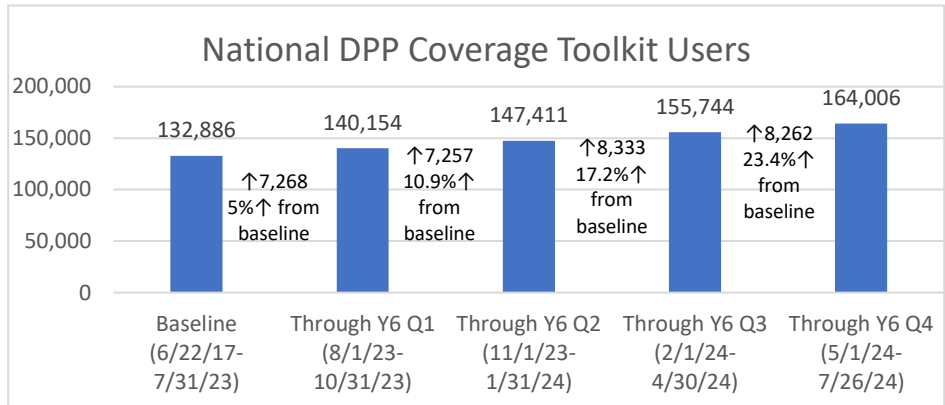

“The National DPP Coverage Toolkit has been critical for explicating key terminology where clarification from the MCO or State Medicaid office has been lacking.”

“This quarter we have been utilizing it to learn more about Medicaid enrollment, in particular to identify proper provider types for enrollment with the State.”

“Diabetes prevention stakeholders and more importantly, delivery sites are aware of where to find tools and resourceful information about sustainability and more. It is a great resource.”

“Of particular interest is the section on Building Partnerships. We are collaborating with our pharmacy staff to promote awareness of the NDPP with pharmacies.”

“Visits to the Coverage Toolkit continue to be helpful. Resources are shared with DPP Stakeholder Network members during bimonthly meetings”
